'A friend, . . . A person with whom I may be sincere. Before him, I may think aloud.'
Ralph Waldo Emerson

Because of your teaching, we learned;
because of your smile, we were lifted;
because of your enthusiasm, we took new interest;
because of your sincerity, we gain new faith in human nature;
because of you, each of us is better in some way.

To you Mr. David N. Settele, we humbly dedicate this Class of 1973 Yearbook.

"Winter, Spring, Summer, and Fall,
All you have to do is call
And I'll be there
by your side
yes, I will:
You've got a FRIEND . . ."

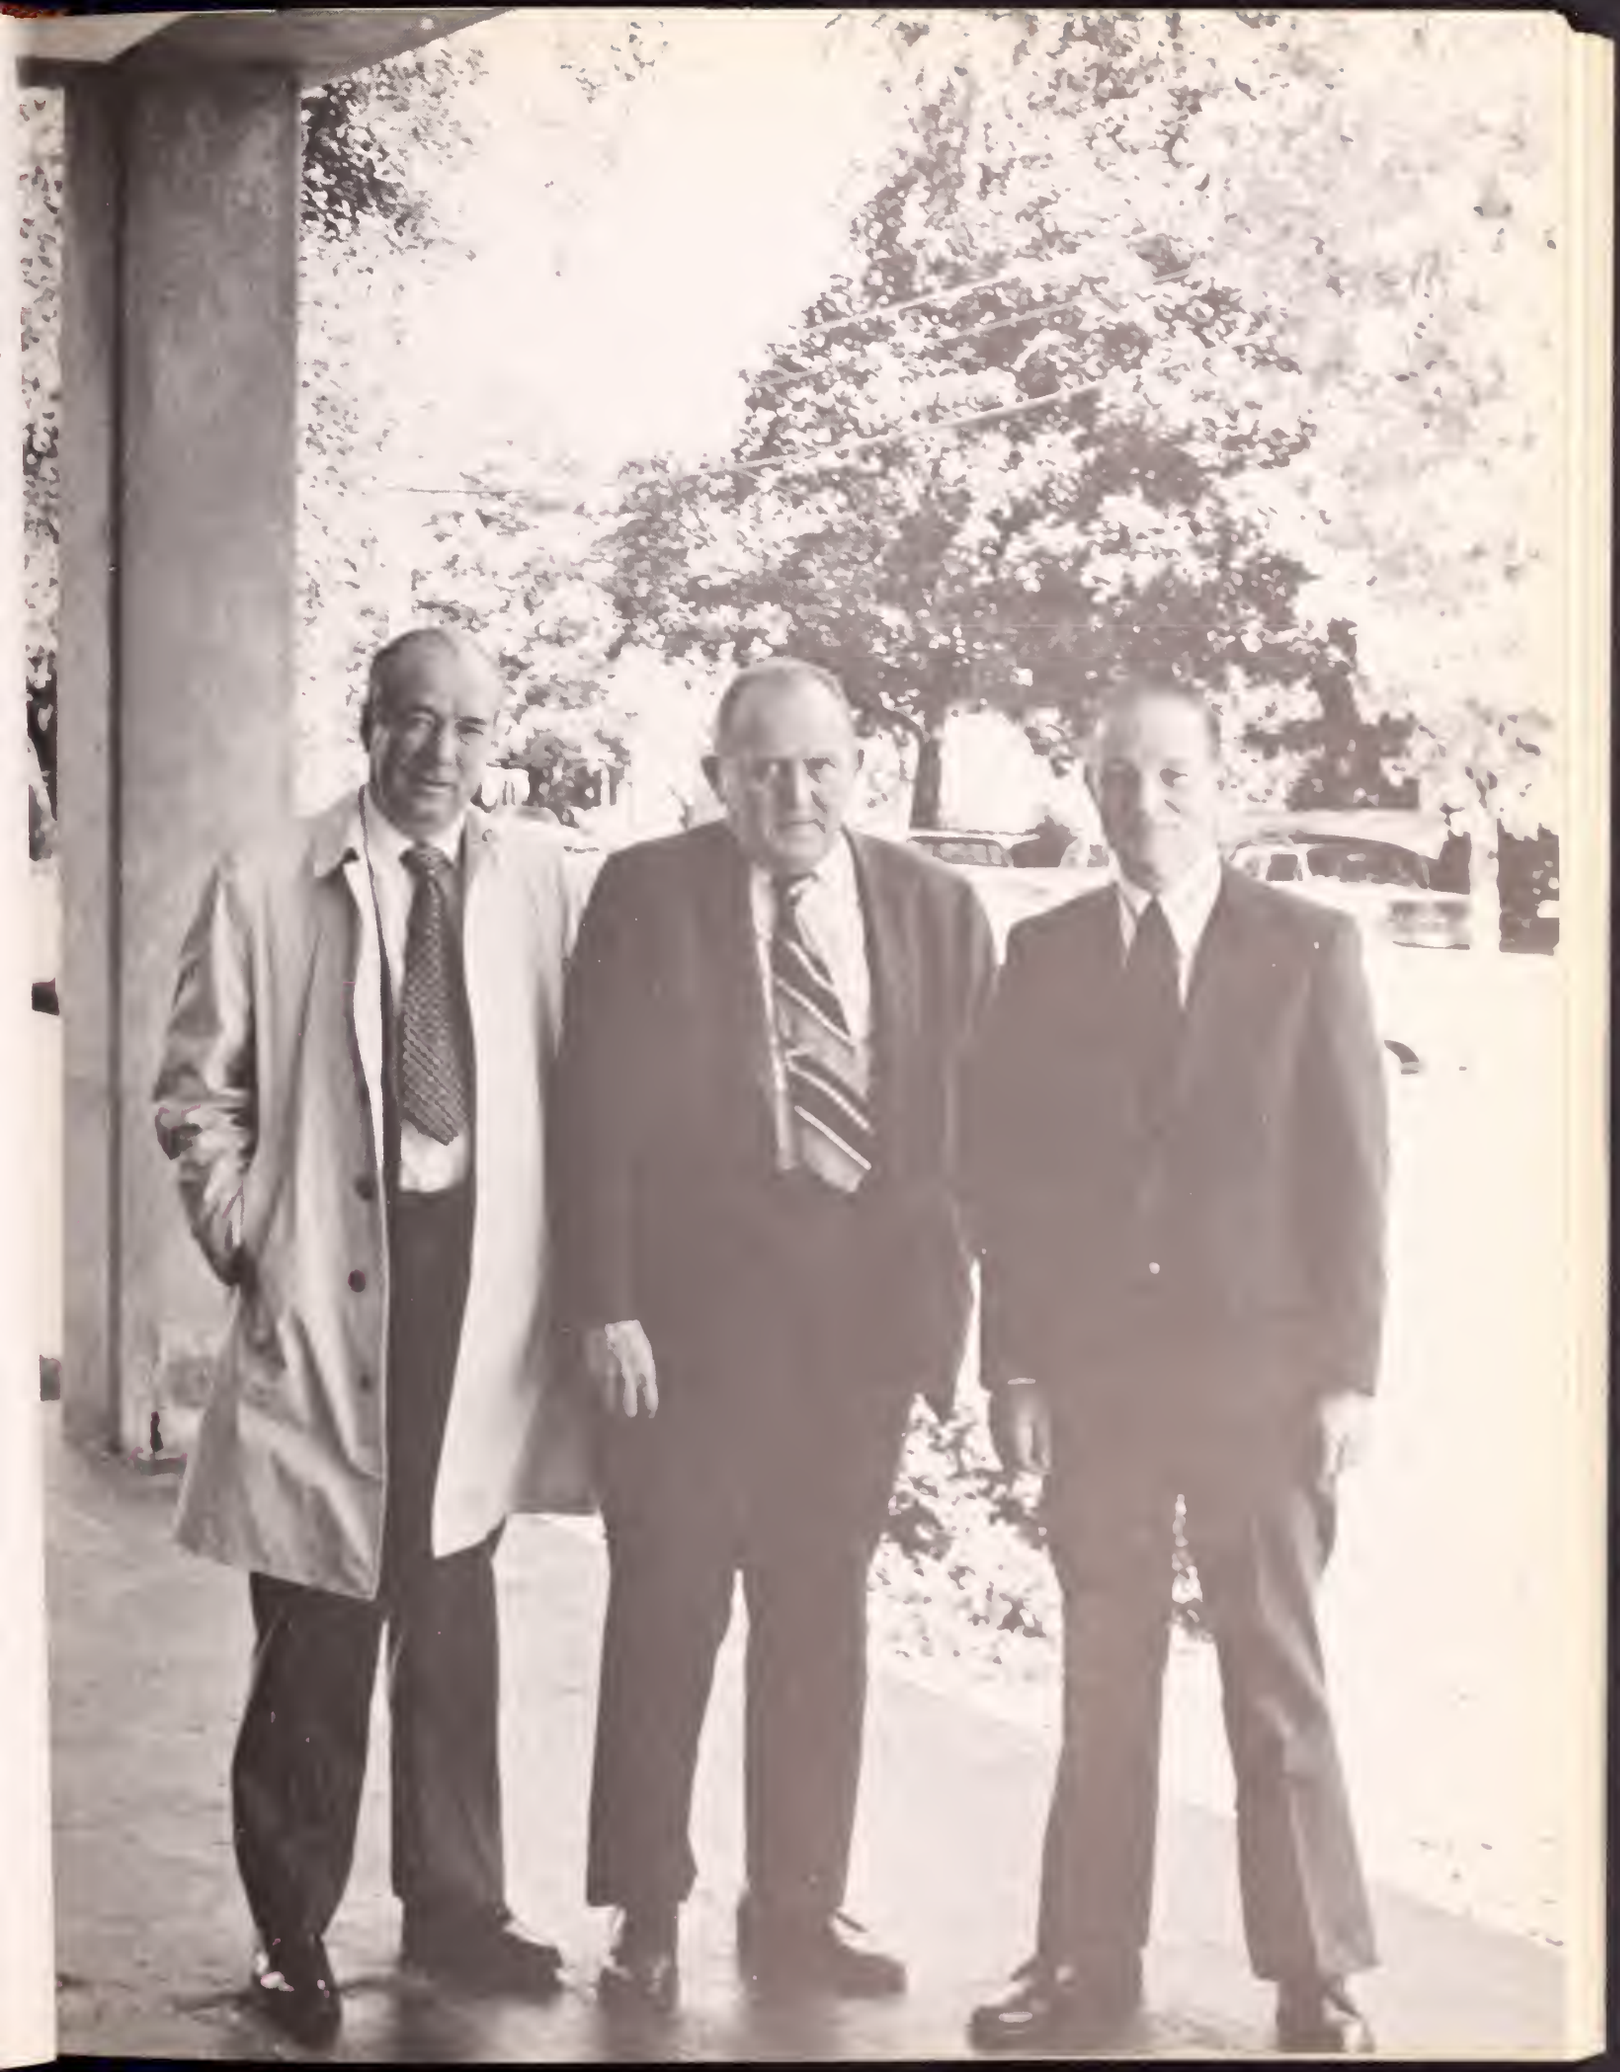
God has placed a torch that
glows with knowledge and
beauty;
it is a sin to extinquish
that torch and bury it in
the ashes.



Administration

James J. Hammond, President

The faith, the vigor, bold to dwell
On doubts that drive the coward
back,
And keen thro' wordy snares to track
Suggestion to her inmost cell.

Class Song

There is something, all around us.
That we feel, that we know.
And this something, is all about us.
And it's ours, yours, and mine.
Oh we hoped, hoped and tried.
And the memories, we have inside will go on,
As we travel on through the years.

(To the melody of "Turn Around")

Alma Mater

In old Wacheusetts' shadow,
Our Alma Mater stands,
Her proud New England banner,
She holds aloft to all the land.

Chorus:
Hail to Alma Mater,
O, Praise her name.
Always may her sons and daughters,
Justify her fame.

Fitchburg State College Wins Safety Award

The students from Fitchburg State College have recently returned from the Urban Vehicle Design Competition held at the General Motor Proving Grounds at Milford, Michigan. This competition is an outgrowth of the previous clean Air Car Race held in 1970. The purpose of this competition was to design and construct a vehicle that would function within the city environment.

The F.S.C. entry has recently completed a display tour of Detroit and Chicago. This was a consequential result of the "Overall Safety Award", presented to the team at the six day national Urban Vehicle Competition. The award was given to the team "For consideration of safety in design and development of new concepts in safety systems". The F.S.C. team is an outgrowth of the school's Industrial Arts Department and specifically its Power Mechanic's Lab.

The students, for the last ten months, have been designing and constructing a vehicle for urban use. The concept of the vehicle has been that of overall passenger safety, extremely low pollution and consumer cost. The students first selected a 1970 Ford Maverick as their base vehicle, due to isolation system, which in a high speed collision, will afford protection to the passengers, while taking advantage of the calculated energy absorbing crush characteristics inherent in unibody structure. They have also added at both ends of the vehicle five mile per hour crash absorbing bumper systems. Added padding in specifically needed areas in the interior has also been used.

Another safety feature of the F.S.C. car is that of tricolored rear lighting system. This system operates with green lights when accelerating, amber lights when coasting, and red lights when stopping.

To attain lower emissions, the students have converted the vehicle to a dual fuel system. This system is comprised of Liquified Natural Gas for city use and unleaded gasoline for extended trips outside the city. A catalytic reactor was added to the exhaust system so that both fuels would obtain lower emissions.

The core group of students involved with the project were: Stephen Kilcoyne and Stanley Gustafson, Co-Chairman; Burton Burjon, Secretary; Donald Irving, Treasurer; Lawrence Richards, Technical Writer; Steven Vaillancourt, Technical Illustrator; Leonard Delory, Robert Eaton, Edward Haddad, Jack Misilo, Fredrick Mueller, Richard Sautter, Andrew Wolander; Asst. Prof. Erling Hanson, Faculty Advisor; and Dr. Edward Martin, Mathematical Consultant.

The vehicle is tentatively scheduled to be shown at area high schools, places of interest and at the end of this month will be shown at the International Liquified Natural Gas Symposium held in Washington, D.C.

Sports at Fitchburg State College

TRACK AND CROSS-COUNTRY

The Track program which was initiated by Mr. Battinelli and coached by Mr. Settele the last 7 years, has enjoyed a very successful campaign, always, being one of the top three Track teams in the State College Conference for the last ten years. The availability of their own track may establish them as the team to beat in the future.

The Cross-Country team organized five years ago this year, enjoyed a successful season under the leadership of William Saville. With most of the key men on the team consisting of Freshmen and Sophomores, the future looks bright.

HOCKEY

Hockey, in its third year under the coaching of new head coach Tom Christopher, is gaining great enthusiasm with the college. An attempt is being made to strengthen the Hockey program by attracting some of the better Hockey players in the area. The program is growing and interest and attendance at games seems to double with each season.

GOLF

Started two years ago F.S.C. presents another sport with a reputation of being a winner. Pat Murphy, in his first year, is looking forward to keep his team on the winning trail.

TENNIS

Coach John Andrews, former star on the F.S.C. Tennis team is enjoying his third year as head coach. The Tennis team is returning three of the last years starting men. Coach Andrews is looking forward to a winning season with fresh talent to lead his squad.

BASEBALL

Under the guidance of head coach Norman Carson and assistant Richard Johnson the team has established itself as a potential winner. In the last six years, the dedication and hard work of the players has provided F.S.C. with this winning attitude. They are looking forward to their new diamond which should be available in the future.

SOCCER

The oldest team sport at F.S.C. is attempting to regain some of the stature it held in the past as one of the top Soccer teams in the east. Such stand-outs as President Hammond, Gene Cassasa, and current coaches Fred Miller and head coach Joseph Farias are graduates of the past winning teams. As Soccer gains in popularity it is hoped that we will attract some of the better qualified players.

BASKETBALL

Though in his fifth year as head coach, Lee Cunningham and assistant Pat Murphy have proved themselves dedicated coaches. The current team shows the ability and enthusiasm to give any of their opponents a true battle. One of the goals of the Athletic Department is to gain the enrollment of some of the local Basketball talent.
